

# SRI VARSHINI.R

Full-Stack Developer | Cybersecurity Enthusiast

Phone : 834-449-3216 | Email: varshudpm05@gmail.com | Place: Udumalaipettai

Linkedin : linkedin.com/in/sri-varshini-4074632a2 | Github : github.com/SrivarshiniRajeshkanna

## CAREER OBJECTIVE

Security-focused Full-Stack Developer seeking to leverage hands-on experience in frontend and backend development to build robust, scalable applications. Expert in designing secure REST APIs, implementing cybersecurity best practices, and optimizing database performance. Committed to delivering clean, maintainable code within agile development environments.

## EDUCATION

### V.S.B College of Engineering Technical Campus

Expected graduation 2027

Bachelor of Computer Science and Engineering | CGPA : 8.4

Coimbatore

**CourseWorks** : Secure Application Development, Object-Oriented Programming, API Development, Database Design, Authentication and Authorization, Network Security, Problem Solving using Data Structures and Algorithms, AI and Machine Learning Fundamentals.

### Veveaham Matric Higher Secondary School

Jun 2022 – May 2023

HSC-Computer Science | Percentage : 85

Dharapuram

**Core Strengths** : Analytical Thinking, Mathematical Problem Solving, Communication, Team Collaboration .

## EXPERIENCE

### Future Interns

Jan 2026 – Feb 2026

Cyber Security Intern

Remote

- Analyzed 10+ web security scenarios involving authentication flaws and input validation issues, aligned with OWASP best practices
- Evaluated backend API security mechanisms and authentication workflows to identify potential misuse risks
- Detected and mitigated 5 critical vulnerabilities.
- Supported application testing and reporting to enhance code reliability and security compliance

### Prodigy Infotech

Jun 2025 – Jul 2025

Backend Developer Intern

Remote

- Developed RESTful APIs reducing authentication errors by 15% through JWT implementation.
- Implemented bcrypt password hashing, reducing risks related to credential exposure
- Improved API response time by 20%
- Tested API endpoints using Postman to ensure functional accuracy and secure responses

### Elevate Labs

May 2025 – Jun. 2025

Full Stack Developer Intern

Remote

- Contributed to full-stack application development by integrating frontend components with backend logic
- Assisted in MongoDB schema design to support dynamic data handling
- Collaborated in using agile methodologies, gaining exposure to complete the software development lifecycle
- Applied version control and CI/CD workflow concepts using GitHub for streamlined project updates and deployment practices.

### Virtunexa

Feb 2025 – Mar 2025

Front-end Developer Intern

Remote

- Built 3+ responsive web projects, including an interactive sidebar, expense tracker, and branded perfume website
- Enhanced user interaction using JavaScript DOM manipulation and event handling
- Managed version control using Git and GitHub, supporting efficient collaboration
- Optimized UI layouts and compatibility, ensuring consistent performance across desktop and mobile browsers

## SKILLS

---

**Programming Languages** : Python [Intermediate] , JavaScript(Node.js, Express.js )[Intermediate] , HTML/CSS , Java [Intermediate], SQL [Intermediate], MongoDB, REST APIs, JWT, bcrypt [Basics]

**Tools**:VS Code, Git, Postman, Wireshark , REST APIs, CI/CD Basics.

**Frameworks** : Express.js, Node.js.

**Concepts**:Artificial Intelligence , Machine Learning , Cybersecurity.

## PROJECTS

---

### Phishing Detection & Awareness Project

- Analyzed 15+ phishing samples to identify spoofed domains, suspicious URLs, and social engineering patterns
- Designed user-focused awareness scenarios to improve phishing detection skills
- Demonstrated real-world phishing prevention techniques aligned with security best practices

### Web Vulnerability Assessment Project

- Conducted vulnerability testing on web applications based on OWASP Top 10
- Identified risks including SQL Injection, XSS, and authentication flaws
- Documented findings with impact analysis and mitigation recommendations

### Interactive Sidebar & Perfume Webpage

- Developed dynamic UI components using JavaScript and DOM manipulation
- Implemented task creation, deletion, and real-time interaction handling
- Strengthened understanding of event handling and page interactivity

### RESTful CRUD API

- Built a REST API supporting full CRUD operations using Node.js and Express.js.
- Implemented UUID-based unique identifiers and HTTP status codes for all responses
- Validated endpoints using Postman with recorded demo walkthrough.

### To-Do List Web Application

- Built a dynamic to-do list application using JavaScript
- Implemented task creation and deletion using DOM manipulation
- Handled user interactions through event listeners

## COURSES & CERTIFICATIONS

---

**NPTEL Java Programming**

*IIT (NPTEL)*

2025

**Full stack Developer training Certification**

*Zidio Development*

2025

## PATENTS AND PUBLICATIONS

---

**Automating Blockchain Development: An AI-Driven Framework for Secure, High-Velocity Smart Contract Deployment**

*Published in the Indian Patent Office Journal, Feb 2026 **Application No: 202641007638 A***

- Published an Indian Patent on an AI-driven blockchain automation framework enabling secure, high-speed smart contract deployment with integrated AI code generation and automated vulnerability detection.
- Designed a scalable decentralized architecture leveraging AI agents and blockchain technologies to enhance smart contract security, deployment efficiency, and autonomous development workflows.

## DECLARATION

---

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
